

## **AP Psychology Summer Assignment- 2023**

Read and outline all of Chapter 1 from your textbooks over the summer.

In addition, I would like you to create **physical** flashcards for the Terms/Names found within the text (there is a list at the end of the chapter with page numbers associated with each word).

This work will be checked on the first or second day of class so please be sure it is completed for your return in August.

We will also have a vocabulary quiz during our first full week of classes so it would be a good idea to study those Terms/Names regularly throughout the run up to our return to school.

**Remember that your textbook for this course is Myers' Psychology for AP (2<sup>nd</sup> edition), not the text we used this school year.**

Please email me with any questions – I will be checking regularly throughout the summer (as should you 😊)

Best –  
Mrs. Hall
